What is My Name My Story?

My Name My Story is an organization that develops changemakers based on the belief that stories inspire empathy, and empathy drives change. Founded by fourteen-year old Amit Dodani in 2011, the organization works to build cultures of empathy. We teach students to seize opportunities that others miss by inventing new approaches, collaborating with other leaders on campus, and creating sustainable solutions to improve your school.

We believe that when an individual connects his or her passion with a larger narrative they can affect powerful change- on a school campus, in the local community, and in the world.

Changemaker Days

Bring My Name My Story to your campus this Fall!

The My Name My Story School Program Includes:

*** CHANGEMAKER DAY**

- * The My Name My Story team comes to your school to present a one-day workshop that empowers your students with the skills of a changemaker. Students participate in activities that explore their passion and purpose and connect it to taking action. They learn not only how to inspire empathy through storytelling, but how to use empathy and their unique talents to drive change on your school campus. We bring diverse groups of students together to teach a new type of leadership, enabling students to go beyond simply connecting to collaborating and co-creating a new school culture.

*** RESOURCE GUIDE & PROGRAM ADVISOR**

- * After a Changemaker Day you will receive a resource guide filled with valuable school and community activities and lesson plans. You will also be appointed a Program Advisor to answer questions and offer guidance as you work with the changemakers at your school.

**Ask us about a
Special
CADA Price**

We will work with multiple schools to help reduce the cost and bring empathy to more schools!
