360 DEGREE **PHOTOSPHERES**

A space-themed illustration on a purple background with a white dot pattern. It features several yellow and orange stars, a white planet with a ring, and a small grey rocket ship flying towards the right.

Create 360 degree photospheres of
events happening on your campus
that can be linked up to audio bits

A large, white speech bubble with a thick black outline is positioned on the right side of a green background with a white dot pattern. The speech bubble has a tail pointing towards the bottom right. Inside the bubble, the text "SO WHAT IS A PHOTOSPHERE?" is written in a bold, italicized, black font.

EXPLORE IN GOOGLE DOCS AND SLIDES

Smarter presentations

Turning your inspiration into a presentation can be a lot of work. Often, employees spend more time formatting slides than thinking creatively about the story they want to tell. Now, as you add content to your presentation, [Explore in Google Slides](#) dynamically offers layout suggestions that help your content shine. We've seen that people save over 30% of the time they would have spent on formatting when they used this capability. In just a couple of clicks, you'll have slides so polished people will think you're a professional graphic designer.
