

DIFFERENCE MAKER SUMMIT

PURPOSE.

Over the past seven years we have realized that many students participating in campus leadership assume that their mere association in leadership makes them an effective leader. We developed the TEEN TRUTH: DIFFERENCE MAKER SUMMIT (TT: DMS) to help these leaders understand that being an effective leader is about more than producing dances, rallies, or theme days. The TT: DMS teaches the importance of their elected position and how to use campus activities to improve their campus culture.

OVERVIEW.

The TT: DMS is a unique two-part interactive training session. The first part gives your leaders a critical understanding of the issues currently affecting your school climate and the second part empowers the students to develop a comprehensive action plan to address the identified concerns. This innovative program is offered to schools that want to improve the impact of existing leadership groups by developing a TT inspired action plan that youth can use to produce campus wide activities that improve safety, connect students and that ultimately enhance your school climate.

OBJECTIVES.

The TT: DMS is a 2-3 hour course guided by your TT speaker that uses storytelling and interactive activities to lead your students through the leadership workshop. At the conclusion of this program your students will:

- Identify critical campus issues that need to be addressed
- Brainstorm tangible and executable solutions that they can implement on campus
- Understand the value of building a campus united by the concept of “we” and not on “me”
- Create a year long activity calendar including events that focus on connecting the student body
