

How to Put on a Dance Assignment

Your assignment is to create a detailed booklet/guide that will show a person with no experience (think alien from another planet) the step-by-step process they'll need to follow in order to create a successful dance. You can be creative in the way you present the material, but the bottom line that I'm looking for is procedure and detail.

Your booklet should be written in sections or chapters and include any forms, paperwork, or examples that will help the "alien" to succeed. There should be a timeline included in your booklet/guide as well. The sections or chapters should include, but not be limited to:

1. Picking the Chairpersons and Date/Time
2. Theme Selection
3. Decorations/Balloons
4. Publicity
5. Tickets
6. Games/Prizes/Give-Away
7. Facilities (Securing Chaperones, Ticket Taking Set Up, etc.)
8. Clean-up
9. Feed back/Critique

It should include the job duties that each chairperson is responsible for completing.

The final product should be easy to read and detailed.

Each person of the group should be responsible for a section. Talk to people who have done the job before to come up with your final product. Share, Share, Share. Be thorough. The leader of each group will have final say as to what needs to be added, subtracted or created.
