Leadership

- Go off of teacher recommendations to add to beginning leadership
- Acceptance emails sent to class
- Advanced is based on year long performance

Interviewing ASB

ASB

- Each cabinet is interviewed as a group.
- Three adults including myself and 1 student group scores the interview
 - 25 points per person totaling 100 points. (Ends up being $\frac{1}{3}$ of the final score)
- The existing ASB President chooses 3-4 students to be on the panel, and the VP scores the group.
- I encourage the team to choose a theme/dress up day and dress accordingly for the interview.
 - I tell them in normal circumstances this would be formal, but one of our interview questions is how they work together as a team, which is hard to assess virtually.
